E' necessario posare con molta cura "I Gioielli di REX" in quanto, essendo materiale rettificato come le lastre di marmo, le piastrelle sono prive di distanziale. Per un migliore risultato estetico si consiglia l'utilizzo di stucchi colorati in sintonia con i relativi colori dei fondi.

Pay special attention when laying "I Gioielli di REX";  
 like marble slabs, this is rectified material so the tiles have no spacers.  
 For better aesthetic results, we suggest you use coloured grouting matching the background colours.

Il est nécessaire de poser avec soin "I Gioielli di REX" car, étant un matériel rectifié comme les dalles de marbre, les carreaux ne disposent pas d'entretoise. Pour un meilleur résultat esthétique il est conseillé d'utiliser des stucs colorés en accord avec les couleurs relatives des fonds.

Die Platten aus der Kollektion "I Gioielli di REX" sind mit größter Sorgfalt zu verlegen,  
 denn sie sind wie Marmor geschliffen und besitzen keinen Abstandsrand.  
 Für eine bessere Optik empfehlen wir die Verwendung von farblich auf die Grundfarben abgestimmten Fugenfüllern.
